DESCRIPTION

Motivated and innovative Full Stack Developer with a strong command of the MERN Stack (MongoDB, Express.js, React.js, Node.js) and hands-on experience in building robust, responsive, and scalable web applications. Looking for a dynamic role where I can apply my skills to solve complex problems and continue growing within a collaborative tech team.

EXPERIENCE

InternWare - Internship Cell

Oct 2022 - July 2024

Technical Mentor

Acted as a key leader and mentor, guiding and supporting team members in their technical development while promoting a culture of continuous learning and professional growth. Fostered collaboration and teamwork by organizing various technical events and peer-learning sessions, contributing to the overall improvement of the team's skillset.

Enord - AI Based Startup

July 2023 - Oct 2023

Full Stack Developer Intern

Contributed to the development of MERN stack applications, both on the frontend and backend. Worked closely with the design team to implement responsive UI using React.js

PROJECTS

UMUNG - Second Edition (Model United Nations Event Website)

[[LIVE LINK TO PROJECT](#)]

Developed a full-stack event website to host a Model United Nations conference, providing participants with a seamless registration and event management experience. Integrated a secure payment gateway using Razorpay for smooth and reliable transaction processing.

MATRIX - Technical Fest Website

[[LIVE LINK TO PROJECT](#)]

Developed a full-stack website to host the annual Matrix Tech Fest, featuring an intuitive ticketing system for over 14 unique events. Designed a visually engaging UI/UX that ensured smooth navigation and easy event registration, creating a seamless experience for users. Integrated Three.js to add dynamic, 3D visual elements, enhancing the modern, tech-forward aesthetic of the site. Built a secure, real-time ticketing system that enabled users to browse and select multiple events, purchase tickets, and manage their registrations efficiently.

HR Conclave Event Website

[[LIVE LINK TO PROJECT](#)]

Developed a super complex ticketing system for the HR Conclave event, featuring multi-tier seating options with varying prices and exclusive perks, similar to the functionality of BookMyShow.

MOVIX - Ultimate Movie Guide

[[LIVE LINK TO PROJECT](#)]

Developed Movix - Ultimate Movie Guide App, a React application showcasing a variety of movies along with their ratings. Utilized Redux for efficient state management, ensuring seamless data flow and a highly responsive user experience.

SKILLS AND TECHNOLOGIES

- Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL, NoSQL
- Frontend: React.js, Redux, Context API, Material UI, Bootstrap, Tailwind CSS, Next.js
- Backend: Node.js, Express.js, RESTful APIs, WebSockets, GraphQL
- Databases: MongoDB, MySQL, Firebase, PostgreSQL
- Authentication & Security: JWT, OAuth, Passport.js, Bcrypt.js, HTTPS
- Version Control: Git, GitHub

EDUCATION

Bachelor of Computer Applications

Major in Computer Science

Maharshi Dayanand University

12th & 10th CBSE

Oxford Sr. Sec. School
